Medi

Cleantech MediVac, a specially crafted backpack vacuum cleaner tailored to meet the unique demands of the AgeCare and Hospital Industry. This innovative cleaning solution is equipped with cuting-edge features to ensure optimal performance in healthcare settings.

The HEPA Four Stage Filtration system sets the Cleantech MediVac apart, incorporating an internal HEPA cartridge, micron exhaust filter, reusable filter bag, and an anti-bacterial disposable bag. This comprehensive filtration guarantees a hygienic environment by capturing even the tiniest particles.

Remarkably quiet with a 62dB sound reading, the Cleantech MediVac minimizes disruption, considering only the air noise emitted from the side exhaust micron filters and floor tool. This low noise level aligns with a normal conversation volume of 60dB.

Designed for user comfort, the Cleantech MediVac boasts a lightweight construction facilitated by Cleantech's Ventilated Back Support System and flexible waist straps. Weighing in at a mere 4.2kg, evenly distributed through the system, this backpack vacuum eliminates strain on shoulders and lower back, providing an effortless and efficient cleaning experience in healthcare environments.

motor	1300w / 240v
airflow	45.6 l/sec @ 40mm orifice
waterlift	2300mm @ closed orifice
filtration	4 layer system - hepa filter
dust bag capacity	5L
power cable	15m - 10amp
application	dry vacuum
